Please join us for the next Parent Partner Learning Collaborative (PPLC) scheduled on Tuesday, April 2, 2024. You will hear from Family Resource Center (FRC) staff that work with families to build resilience and develop supportive networks in their communities. FRC staff recognize community gaps and understand the need to provide preventive services and supports. Our guest speaker will share his experiences implementing FRCs in their state and collaborating with parent partners. When registering please submit any questions you may have!

**Ryan Adams**

After years of working in children's behavioral health and foster care, Ryan Adams saw an unmet need in the State of Iowa. Ryan's conviction is that the best way to help our most vulnerable youth is to support families through community, peer to peer support, and co-location of resources. This led Ryan to invest in Iowa's Family Resource Centers, and Iowa has become the 41st state to join the National Family Support Network. Iowa is now connected to over 3,000 FRCs throughout the nation, offering families in need a voice in their own journey and community. Ryan's background also includes work in Peace Corps, Paraguay and innovative work with foster care in California.

After registering, you will receive a confirmation email containing information about joining the meeting.

**We look forward to seeing you! Please share this with others in your networks!**

The PPLC is supported through a collaboration between the Children's Trust Fund Alliance and Casey Family Programs. The purpose of this collaborative is to build connections among administrators and staff of parent partner programs all across the country, share and spread knowledge, leverage existing resources, address common challenges, and highlight lessons learned.
